

- Place the axle (C) through the frame (A) where indicated on the diagram.
- Place 1 wheel (B) on each end of the axle.
- Then place the washer (E) on the outside of the wheel (B).
- Thread the small cotter pin (D) through the holes on each end of the axle (C) to hold the wheels (B) in place.
- Bend back cotter pin (D) so it will not fall out.
